

In 1999/2000 the Central Savannah River Section approved donating a scholarship to a student studying engineering in the local area. The money was given to the only school offering engineering studies and the school selected a student based on scholarship and need. We also contributed to Augusta Technical College when they started an engineering program and established an ASME student section.

Scholarships awarded to date by Central Savannah River Section of ASME:

1999/2000	Jeffrey Still	USCA	\$500
2000/2001	James Baker	USCA	\$500
