Help out the CU Mechanical Engineering Students. Give them your best criticism (constructive, of course) of their Old Guard Poster and Oral Technical Presentations. This will aid them in preparing for the "real" Old Guard Competitions at the ASME Regional Student Conference, held in Greensboro, NC, on March 28th and 29th.

CHAIRMAN'S MESSAGE

The message is a request to attend this month's meeting. This Old Guard trial run is an excellent opportunity for the "working" engineers of the Greenville Section to share their knowledge and experiences with the Clemson University ASME students, and vice-versa. The intellectual and social interaction that I have seen between the section's mechanical engineers and the engineering students in the past, at section meeting and ASME Regional Conferences, has always been extremely positive.

Spare a little of your evening to attend this meeting. I believe that it will a valuable experience to both you and the students.

Jim Batton
